AUCTION FEE SCHEDULE

The FCC Remote Electronic Access System allows auction applicants the opportunity to participate fully in an FCC auction from their offices. It includes various software, with which applicants can:

1. File an FCC Form 175 application
2. Review other FCC Form 175 applications filed
3. Submit and withdraw bids and submit activity rule waivers
4. Receive auction messages/announcements and submit suggestions
5. Create and download customized round results files, and
6. File an FCC long form application.

In 1995, the FCC issued a *Report and Order* in WT Docket No. 95-69, FCC 95-308, 60 FR 38,276 (July 26, 1995) establishing fair and reasonable charges for auction software and on-line access to the FCC's wide area network to use the software. It established the following schedule of charges:

	SOFTWARE	ACCESS PER MINUTE
FCC Form 175 Filing	FREE	FREE
FCC Form 601 Filing	FREE	FREE
FCC Form 175 Review	FREE	\$2.30
FCC Form 601 Review	FREE	TEMPORARILY FREE
Bid Submission	\$175.00	\$2.30
Messages/Announcements	FREE	\$2.30
Suggestion Box	FREE	\$2.30
Round Results Viewer	FREE	\$2.30

Bidding Credits	A bidder with average gross revenues not to exceed \$15 million for the preceding three years receives a 25 percent discount on its winning bids for LMS licenses. A bidder with average gross revenues not to exceed \$3 million for the preceding three years receives a 35 percent discount on its winning bids for LMS licenses.

The LMS spectrum auction will use simultaneous multiple round competitive bidding. Bidding will be permitted only from remote locations, either electronically (by computer) or telephonically. Specific information relating to this auction will be announced by public notice. General information and associated licensing parameters are listed below.

Number of licenses being offered:

A total of 528 multilateration LMS licenses will be awarded; one license for each of the three spectrum blocks in each EA. Licenses will be offered in 172 EAs covering the United States and 4 additional licensing regions: (1) Guam and the Northern Mariana Islands; (2) Puerto Rico and the U.S. Virgin Islands; (3) American Samoa; and (4) the Gulf of Mexico. (*see* pages 17-20 in this Tab for a complete listing of licenses.)

Eligibility for small and very small business provisions:

A. General Eligibility Criteria

As described above, this auction offers one license for each of three spectrum blocks in each of the 176 Economic Areas (EAs) designated for LMS. Our goal in adopting special small business provisions is to promote and facilitate the participation of small businesses in the LMS auction and in the provision of this and other Commercial Mobile radio services.

(1) Determination of Revenues

For purposes of determining which entities qualify as very small businesses or small businesses, the Commission will consider the gross revenues of the applicant, its controlling interests, and the affiliates of the applicant and its controlling interests. Therefore, the gross revenues of all of the above entities must be disclosed *separately and in the aggregate* as Exhibit C to an applicant's FCC Form 175. The Commission does not impose specific equity requirements on controlling interests. Once principals or entities with a controlling interest are determined, only the revenues of those principals or entities will be counted in determining small business eligibility. The term "controlling interest" includes both *de facto* and *de jure* control of the applicant. Typically, *de jure* control is evidenced by ownership of at least 50.1 percent of an entity's voting stock. *De facto* control is determined on a case-by-case basis. The following are some common indicia of control:

- the entity constitutes or appoints more than 50 percent of the board of directors or management committee;
- the entity has authority to appoint, promote, demote, and fire senior executives that control the day-to-day activities of the licensee; or
- the entity plays an integral role in management decisions.

(2) Very Small or Small Business Consortiums

A consortium of small businesses or very small businesses is a conglomerate organization formed as a joint venture between or among mutually independent business firms, each of which *individually* satisfies the definition of very small or small business in Section 90.1103(b)(1) or (2). Thus, each consortium member must disclose its gross revenues

along with those of its affiliates, controlling interests, and controlling interests' affiliates. We note that although the gross revenues of the consortium members will not be aggregated for purposes of determining eligibility for very small or small business credits, this information must be provided to ensure that each individual consortium member qualifies for any bidding credit awarded to the consortium.

(3) Application Showing

Applicants should note that they will be required to file supporting documentation as Exhibit C to their FCC Form 175 short form applications to establish that they satisfy the eligibility requirements to qualify as a very small business or small business (or consortiums of very small or small businesses) for this auction.¹ Specifically, for the LMS auction, applicants applying to bid as very small or small businesses (or consortiums of very small or small businesses) will be required to file as Exhibit C to their FCC Form 175 short form applications, all information required under Sections 1.2105(a) and Section 1.2112(a). In addition, these applicants must disclose, *separately and in the aggregate*, the gross revenues for the preceding three years of each of the following:

1) the applicant; 2) the applicant's affiliates; 3) the applicant's controlling interests; and 4) the affiliates of the applicant's controlling interests. Certification that the average gross revenues for the preceding three years do not exceed the applicable limit is not sufficient. A statement of the total gross revenues for the preceding three years is also insufficient. The applicant must provide separately for itself, its affiliates, and its controlling interests, a schedule of gross revenues for *each* of the preceding three years, as well as a statement of total average gross revenues for the three-year period. **If the applicant is applying as a consortium of very small or small businesses, this information must be provided for each consortium member.**

B. Bidding Credits

Qualifying LMS applicants are eligible for a bidding credit which represents the amount by which a bidders winning bids are discounted. The size of an LMS bidding credit depends on the average gross revenues for the preceding three years of the bidder and its controlling interests and affiliates:

- A bidder with average gross revenues not to exceed \$15 million for the preceding three years receives a 25 percent discount on its winning bids for LMS licenses; and,
- A bidder with average gross revenues not to exceed \$3 million for the preceding three years receives a 35 percent discount on its winning bids for LMS licenses.

Bidding credits are not cumulative: qualifying applicants receive either the 25 percent or the 35 percent bidding credit, but not both. The definitions of very small business and

¹ See 47 C.F.R. §§ 90.1103 and 1.2105.

small business (or consortiums of very small or small businesses) (including calculation of gross annual revenue) are set forth in 47 C.F.R. § 90.1103(b)(1),(2) and (5).

LMS bidders should note that unjust enrichment provisions apply to winning bidders that use bidding credits and subsequently assign or transfer control of their licenses to an entity not qualifying for the same levels of bidding credits. Finally, LMS bidders should also note that there are no installment payment plans in the LMS auction.

Permissible Operations:

Multilateration LMS systems utilize non-voice radio techniques to determine the location and status of mobile radio units. Multilateration LMS systems are authorized to transmit status and instructional messages, either voice or non-voice, so long as they are related to the location or monitoring functions of the system.

License Period:

Licenses will be issued for a ten-year term from the initial license grant date. Licenses will be required to construct and place in operation a sufficient number of base stations utilizing multilateration technology to provide multilateration location and monitoring service to one-third of the license areas population within five years of initial license grant and two-thirds of the population within ten years.

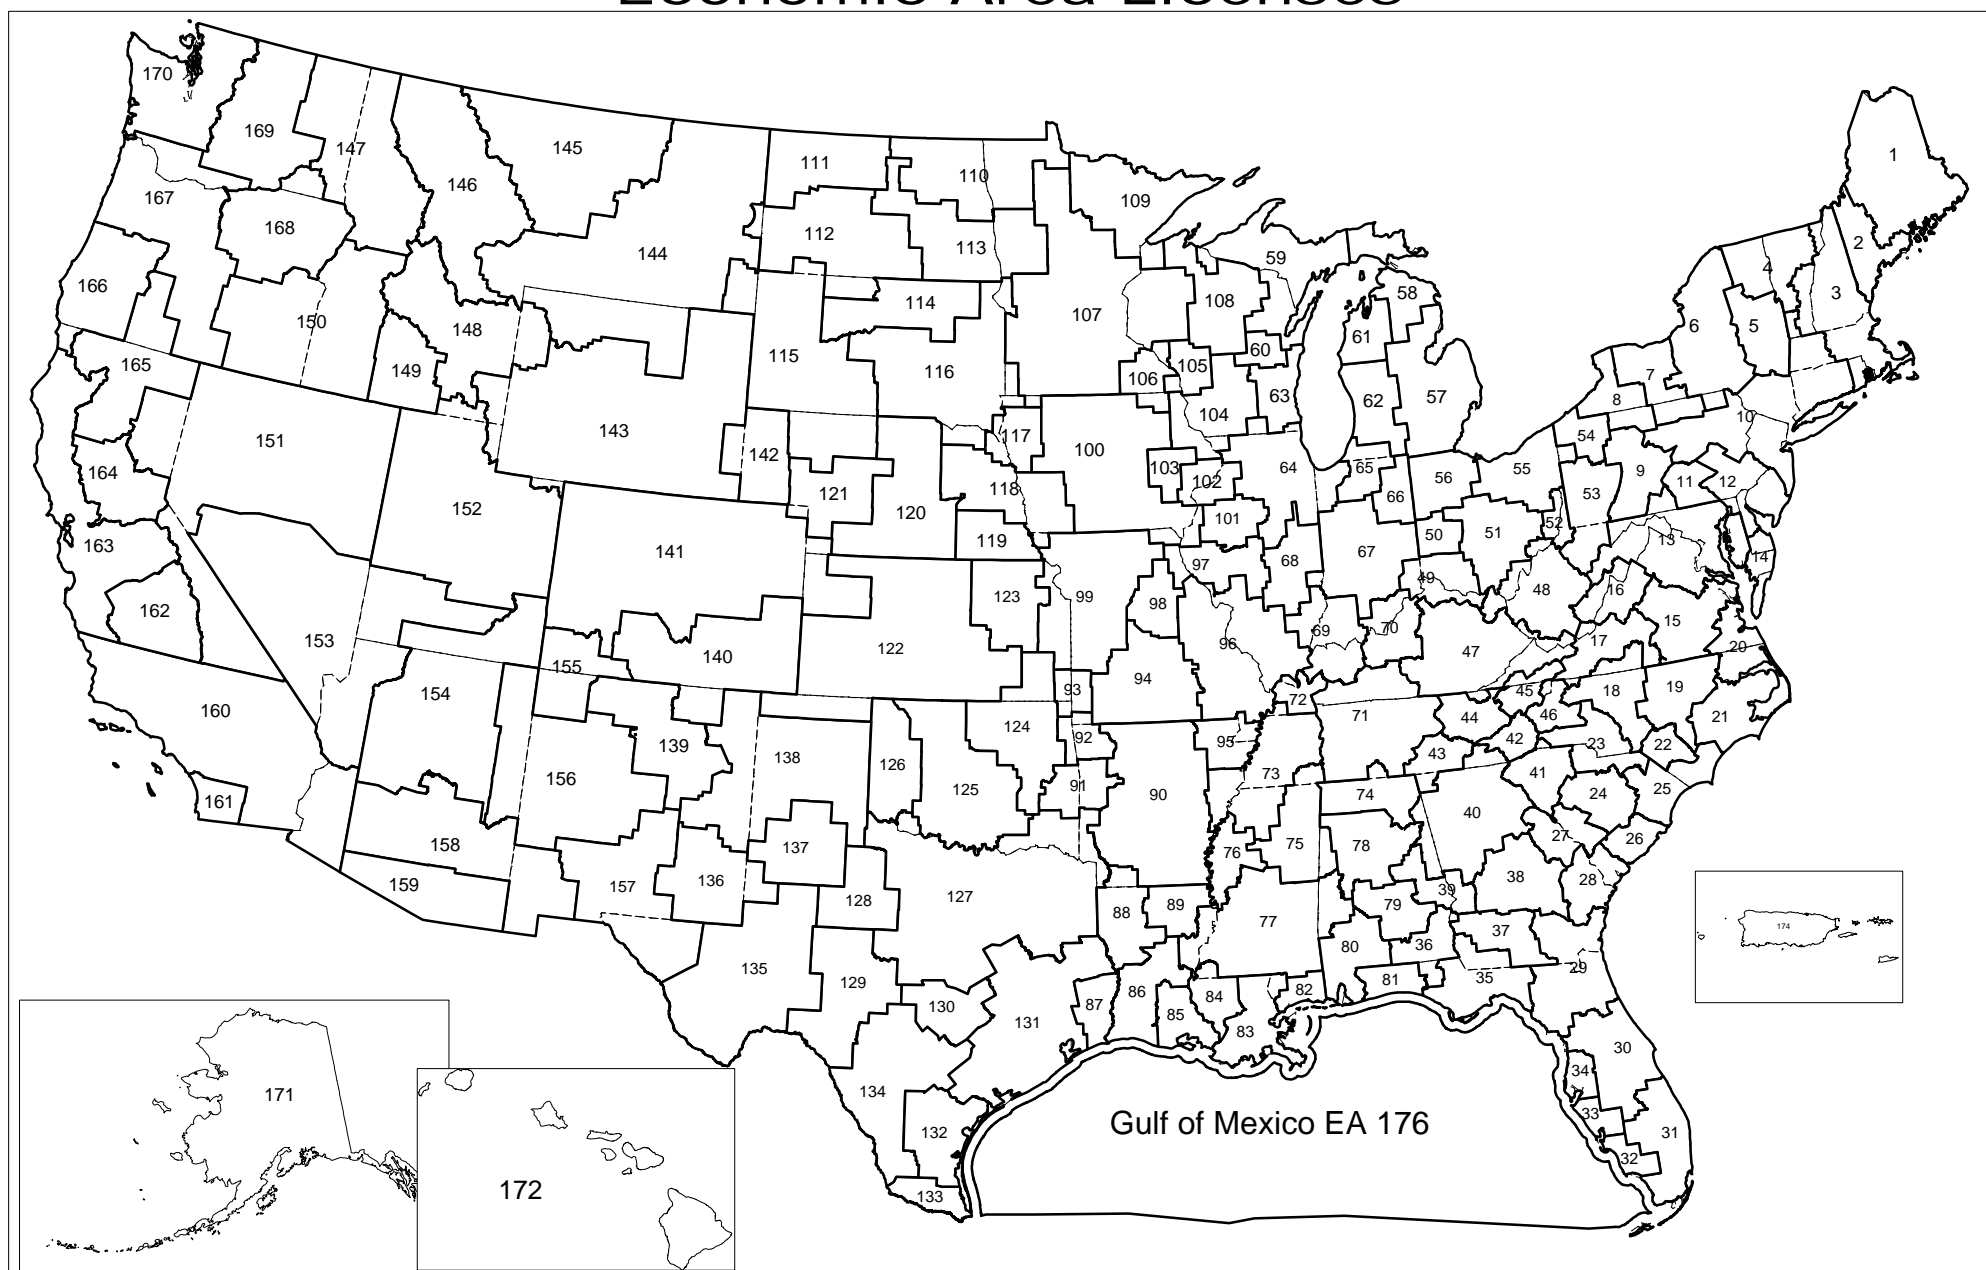

Incumbents:

LMS operates in the 902-928 MHz frequency band. The band is allocated for primary use by Federal Government radiolocation systems. Next in order of priority are Industrial, Scientific, and Medical devices. Federal Government fixed and mobile and LMS systems are secondary to both of these uses. The remaining uses of the 902-928 MHz band include licensed Amateur radio operations and unlicensed Part 15 equipment, both of which are secondary to all other uses of the band.

SUMMARY OF LICENSES TO BE AUCTIONED

The following table lists the 176 Economic Area (“EAs”) licenses for which the FCC will issue Location and Monitoring Service (LMS) licenses. This auction offers a total of 528 multilateration licenses, three in each EA.

For each EA license, the table lists the: market number, license name, license number, population, upfront payment (which corresponds to the number of bidding units required to bid on each license), and the minimum opening bid.

- A complete license number for EA licenses are: B plus the EA designation plus the letter designation for the license block. For example the license number for the A-block license in the Bangor, Maine EA will be BEA001A.
- All population figures are from the 1990 United States Census, United States Department of Commerce, Bureau of the Census.
- The six right columns of the table show the upfront payments and minimum opening bids for Block A, B, and C, respectively. Please note that upfront payments (and the number of bidding units) are used to determine bidding eligibility and activity. They are completely unrelated to the dollar amount of actual bids placed.

Following the summary of licenses is a table listing the counties in each EA.
